BOSCH
Invented for life

4.3" Touchscreen

The IUI-SOL-TS4 4.3" Touchscreen is an entry level codepad for the Solution 2000/3000 intrusion panel. Designed to mimic the functionality of the IUI-SOL-TEXT Alphanumeric keypad while also providing the flexibility and ergonomics of a modern touchscreen, the IUI-SOL-TS4 allows for both convenient use and full programming of the intrusion panel. The simplistic user interface is both easy to navigate for the end user, and familiar to operate for the installer.*

7" Touchscreen

The IUI-SOL-TS7 7" Premium Touchscreen for the Solution 2000/3000 intrusion panel presents a market leading user experience designed to fit with the lifestyle and décor of the modern home. Allowing both control and programming of the intrusion panel, the IUI-SOL-TS7 also gives a number of unique features including a digital photo-frame mode, and optional disarming via a paired Bluetooth device such as a personal Smart Phone. With more features set to be released via firmware in coming months, the IUI-SOL-TS7 is a true next generation interface for the Solution 2000/3000.*

*Only 1 touchscreen per panel
